

Diabetes Questionnaire

We are extremely pleased to announce that Dr. Jean Dodds, a pre-eminent researcher with decades of experience, especially in the field of autoimmune reactions to vaccines and drugs, has agreed to analyze data on **AMERICAN ESKIMOS WITH CONFIRMED DIABETES**. IF she is able to establish a correlation coefficient indicating one or more factors correlates with development of diabetes, we may have additional tests or requests for data to get some answers as to why we have an epidemic of diabetes in our breed.

Please complete the following questionnaire **BY OCTOBER 1, 2016** and send to ONE of the following:

- Patrea Pabst 2966 Hartwell Hwy NW Dewy Rose GA 30634 aepied@aol.com
- Sharon Robertson 20096 Kennedy Rd, Caledon, ON L7K 1Y3 sharon@nuuktokamericaneskimodogs.com

OR, IF PRIVACY is a concern, you may email directly to Dr. Dodds at wjeandodds@gmail.com

NOTE DR. DODDS IS VERY BUSY - PLEASE ADDRESS QUESTIONS TO SHARON OR PATREA; WE WILL GET YOU ANSWERS.

OWNER: NAME, ADDRESS, CONTACT INFORMATION:

AMERICAN ESKIMO:

Name:

Age: (present or at time of death)
